

Connect With Quality . . .

WWW.GNLINT.COM

Ningbo GNL Elevator Spare Parts Co.,Ltd.

Company profile

Ningbo GNL Elevator Spare Parts Co., Ltd.

Located in Ningbo City, China. Ningbo City is known as the home of the Elevator & Escalator spare parts in China. Ningbo is also an important port city located 220 kilometers (140 mi) south of Shanghai.

Why You Like Business With Ningbo GNL?

Ningbo GNL Elevator Spare Parts Co., Ltd. Started business with the great slogan "Connect with quality", Ningbo GNL never compromise with the quality of the spare parts. Ningbo GNL co-operates with the OEM brand and supplies the best of best quality parts to the customer. Ningbo GNL also customized any requirement parts for the customer.

Why Ningbo GNL Is Special?

Every Ningbo GNL family members have a great history of experience in elevator spare parts industry. Each member waiting 24/7 for best customer service. Any inquiry /message/information, get reply within 24 hour. A big inventory insure the most regular parts in stock and ship out within 48 hour after receiving the payment.

Why Business with Ningbo GNL is safe?

There is lot of local small company who generally offer the low quality and less price but when any problem happens, they have no ability to give any backup/recover/ solve the problem. But Ningbo GNL Elevator Spare Parts Co., Ltd. Is the master label big invest company in Ningbo City. China, and have fully ability to recover any problem if there is...

Elevator Door Inverter

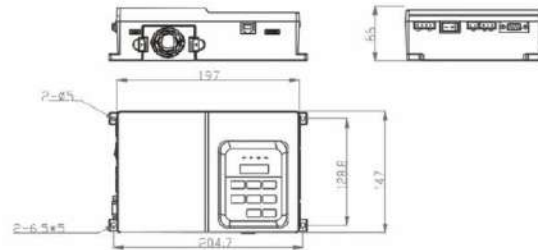

You can modify the parameters, monitor the working status and run or stop the controller by operating the operation panel shown.

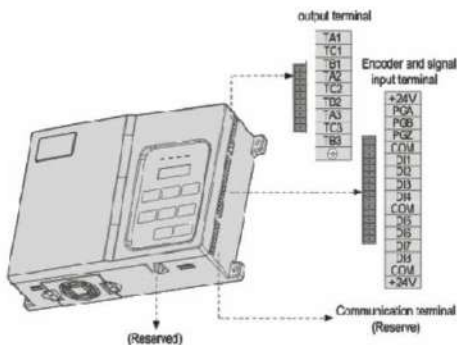

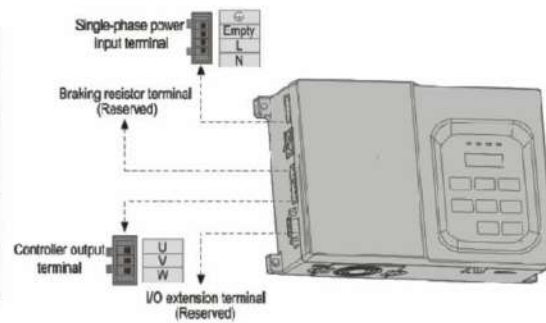

Main Features of GNL Door Machine Controller

- Sensorless vector control (SVC) and Closed-Loop Vector Control (CLP).
- Matched with asynchronous motor and PMSM.
- 2 kinds of motor auto-tuning mode are available.
- Support 2 control modes (speed control and distance control).
- Slip compensation & Torque booster.
- Door width auto-tuning.
- Torque setting for door width auto-tuning or initial running.
- Special design for door machine controller of lift/elevator.
- Automatic demonstration is supported.
- Overload protection (1 minute for 150% of rated current, 1 second for 180% of rate current).
- Automatic identification upon hindering.

Terminal	Name	Description
L, N	Single-phase power input terminals	Provide single-phase 220 VAC power supply.
P, PB	Reserved	These terminal are generally reserved, but they can be connected with the external regen. resistor if required.
U, V, W	Controller output terminals	Connect the three-phase motor.
⊕	Grounding terminal	Must be grounded.

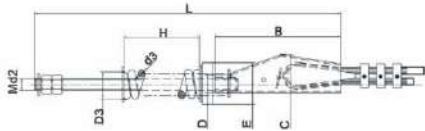

Name	Type	Mark	Function Description	Remarks
Door state output terminal	Relay output and grounding	TA1/TR1/TC1 TA2/TR2/TC2 TA3/TR3/TC3	Relay output	1. TA-TB: normally closed (NC) TA-TC: normally open (NO) Contact capacity: 250 ACV, 3A; 30 VDC, 1 A 2. Insulation voltage class between contact and control circuit: 2.5 kVAC
Encoder and control signal input terminal	Internal 24 V power supply	+24V	24 VDC power supply	Used as the non-contact switch or power supply for the encoder. Maximum output current: 200mA
		COM	24 V power common	Isolated with the internal 24 V power common terminal of the controller
	Encoder input	PGA	Encoder phase A	Open-collector output or push-pull output
		PGZ	Encoder phase Z	
Reserved	Digital input	D1 to D8	Digital signal input	Optocoupler isolation, low level active Input voltage range: 0-30 VDC Input impedance: 3.3 kΩ
	Software burning interface	RS45	Software burning interface	-
